

STAKEHOLDER NOTICE

ITB CUSS Check-in Upgrade – Rows 9 & 10

Update 8: September 2024

BACKGROUND

In the initial stage of the ITB CUSS Check-in Upgrade Project, we will be fast-tracking Rows 9 & 10 for a capacity upgrade project. The works include installing Automatic Bag Drops (ABD) to rows 9 & 10 to enhance capacity. The works involve removing conventional check-in counters and replacing them with ABDs and kiosks. The baggage conveyor will be replaced and extended as a part of the work to increase capacity. Each row will have 4 hybrid units, 8 ABD units and 30 kiosks.

UPCOMING WORKS

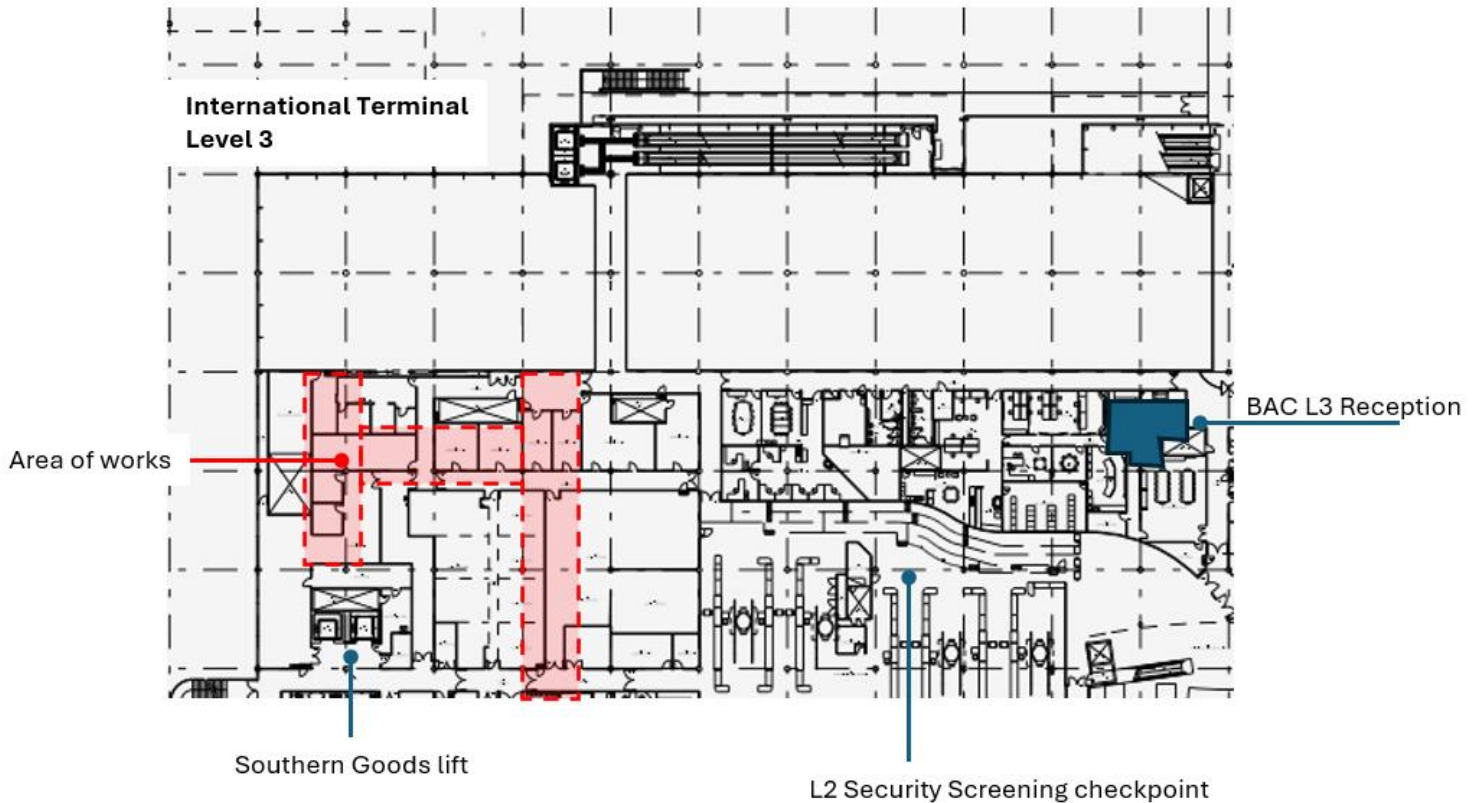

Date	Time	Activity

4 th - 10 th September	Day works (noisy)	<ul style="list-style-type: none">Tilt cones install along Row 9
9 th September	Night works	<ul style="list-style-type: none">ABD Delivery to Row 9 & 10 hoarding area from L4 bridge. (Larger Delivery)

- We will continue to undertake works on level 3 Offices and BAC corridor spaces to allow us to undertake cable tray installation and cable tray installation works for the new kiosk located on L3 southern end of the main terminal as shown in the location plan.
- We understand the importance of minimising disruptive noise impacts during the hoarding construction. While we will make every effort to limit loud noises to after hours, it is essential to recognise that the construction site may still produce some unavoidable noise

during the day. We appreciate your understanding and cooperation as we complete the project efficiently and effectively.

- Noisy works will be undertaken within the off-peak times within Level 4 between 11 pm – 4 pm and in the evenings 11:00 pm – 4:00 am.
- Please note the impacted tenants have been contacted and we are working through which is the best times to access their tenancy.
