

STAKEHOLDER UPDATE

D127 Stakeholder Notice – Northern Canopy Works – Gutter & Drip Tray Install

Update: November 2024

BACKGROUND

As part of the newly installed Northern Canopy, Lendlease are required to install eaves gutters and drip trays to the canopy above the northern baggage hall entrance, outside of the current construction zone.

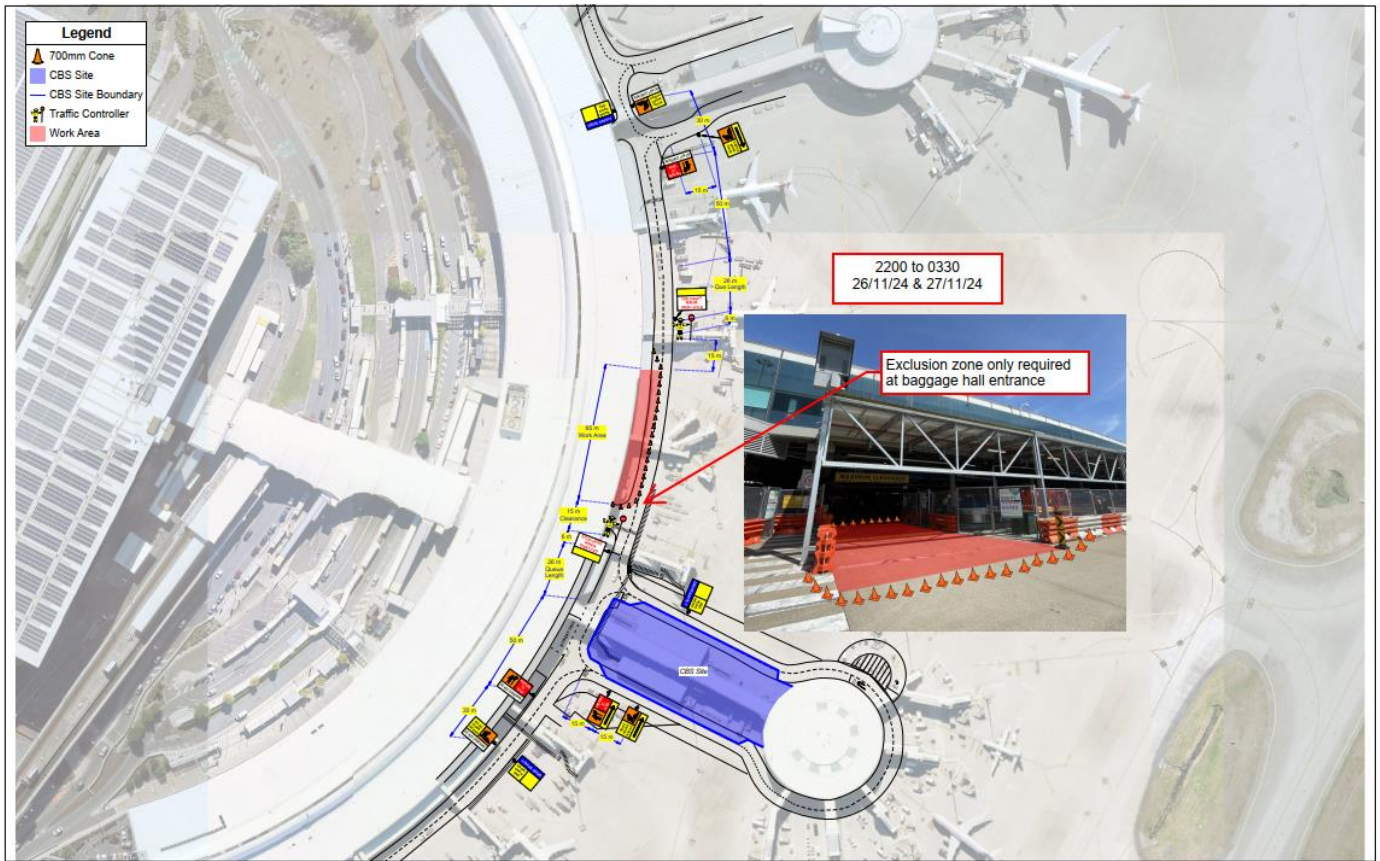

SCOPE

- **Gutter and Drip Tray Installation**
 - Dates: 10:00pm to 3:30am, November 26th and 27th, 2024.
 - Potential work on November 28th night, to be advised.
 - Eaves gutters to be installed on the front face of the new canopy over the baggage hall entrance.
 - Drip trays to be installed beneath the canopy roof junction with the existing curtainwall.
 - A hold/go traffic control system will be implemented to allow one-way traffic flow on the main road, as per TGS below. Please note that only a small section of the road will require this one-way traffic flow to allow works on the face of the canopy.
