

STAKEHOLDER NOTICE

Landside Roads Rehabilitation Works

Issued: January 2025

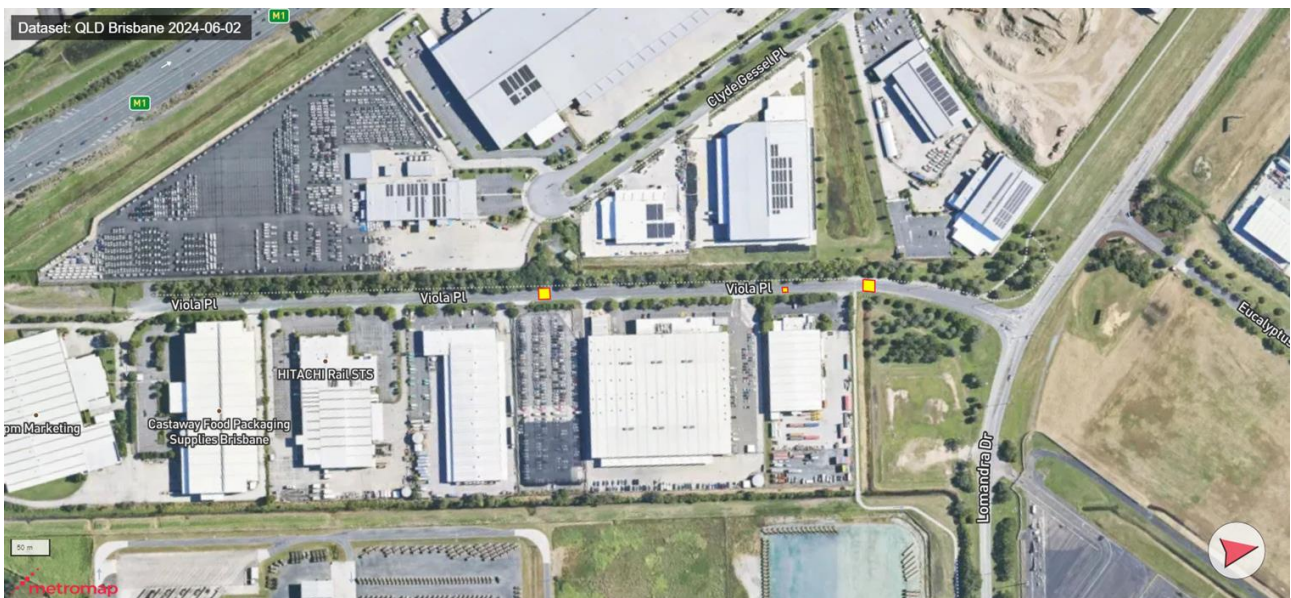

OVERVIEW

The roads are significantly deteriorated with potholes, crocodile cracking, and pavement depression. The proposed works will rehabilitate the worst areas using asphalt inlay to extend the road's lifespan and prevent further infrastructure damage. Ventia, our pavement maintenance contractor, will handle the project for BAC. To minimise disruption to the airport community, the work will be done at night.

SCOPE

- Profile and pave isolated sections of Viola Place and Boronia Road identified as areas of concern.
- Approximately 15m³ of asphalt inlay will be required for the project.
- Complete the work without causing unplanned disruptions to the public or operations.

LOCATIONS

Location 1 – Viola Place

Location 2 – Boronia Road

TIMING

Works are scheduled to occur overnight on Tuesday, February 4, 2025.

Date	Location	TGS	#	Timing
Monday, February 3, 2025	BAC Boronia Rd	TGS Approved	394	7PM to 12AM
Monday, February 3, 2025	BAC Viola Place	TGS Approved	394	12AM to 5AM

IMPACT

Minimal disruption to road users is expected due to the timing of the works and the use of approved traffic guidance schemes.
