

# Stakeholder Notice

## International Terminal Security Retail Upgrade Project | Electrical Services Upgrade - Stage 1

STK-N I-92

Date 30 July 2025

As part of the International Terminal Security Retail Upgrade Project (ITB SRUP), the electrical services will be upgraded.

### Overview

Lendlease will carry out a series of works to install electrical services submains and cabling from Level 1 to Level 3.

On Level 3, the works will follow the recently installed cable tray path from riser 5 through the switch room, across the Northern screening area, anti-pass back corridor and into the Lendlease construction work area.

### Scope of Works

Installation of cable submains from Level 1 main switchboards to Level 3, as required for the retail upgrade and Level 4 security screening.

This will include:

- New penetrations into main switch rooms and risers on Level 1.
- Electrical submain cable installation in Riser 5, up to Level 3, through the Northern Screening room (Campak work area), BAC anti-pass back corridor to Lendlease construction work area.
- Electrical submains install at high level from MSB 513 to Riser 9.
- BAC and ABF cable containment to Riser 5.

## Impacts

Type of works	Date Range	Time	Impacts
Level 1 Substation 16 & 17 (MSB 510) - penetrations investigations, set out, scan and core hole	29/07/25 to 04/08/25	Between 06:00 to 18:00	<p>Brief temporary exclusion zone in place to set out, measure, and scan.</p> <p>EWP in use when working in the service road passageway.</p> <p>A spotter will be in place to manage pedestrian access.</p>
Level 1 Riser 5 - penetrations investigations, set out, scan and core hole	29/07/25 to 04/08/25	Between 06:00 to 18:00	<p>Brief temporary exclusion zone in place to set out and measure.</p> <p>Mini scaffold in use when working in the service road passageway.</p> <p>A spotter will be in place to manage pedestrian access.</p>
Level 1 Substation 15 (MSB 513) - penetrations investigations, set out, scan and core hole	29/07/25 to 04/08/25	Between 06:00 to 18:00	<p>Brief temporary exclusion zone in place to set out and measure.</p> <p>EWP in use when working in the service road passageway.</p> <p>A spotter will be in place to manage pedestrian access.</p>
Level 3 Riser 5 and Level 3 switch room 3B - Electrical and communications cable ladder installation	01/08/25 to 08/08/25	Between 06:00 to 18:00	<p>No impact. Works within riser.</p> <p>Material movement to be carried out during quiet times.</p>
Campak's work area (Northern Screening room) - Electrical and communications cable ladder Installation	01/08/25 to 08/08/25	Between 06:00 to 18:00	<p>No impact. Works within Construction Zone.</p> <p>Access coordinated with Campak.</p>

anti-pass back Staff Corridor (3D-07) - Electrical and communications cable ladder Installation	07/08/25 to 18/08/25	Between 20:00 to 06:00	No impact. Works within/ ceiling above corridor.  Corridor remains open.
