

# Stakeholder Notice

## DTB Car Park 2 Extension Project (P2X)

STK-N 1243  
Date 25 August 2025

### [Weekly Works - Power BI](#)

As part of the Domestic Terminal Car Park Expansion Project (DTBP2X), fire pump valve replacement works will be undertaken to improve system compliance and operational reliability.

This notice outlines the closures, schedule, scope, and safety controls in place to ensure safe and efficient delivery.

[Please note the previous works on the 22nd of August were cancelled due to issues isolating the valve.](#)

## Location

Location of Valve:

Figure 1: Impact locations

## Scope of Works

This activity involves the removal of a non-compliant butterfly valve and the installation of a new Outside Screw and Yoke (OS&Y) valve on the suction line of the jacking pump. To facilitate these works, the water supply will be isolated at the P2 sluice valve located on Alpinia Drive. No traffic impacts are expected during this operation. Please note, the works will require isolation of the P2 fire system.

### Fire pump valve replacement

**Date: Wednesday 27 August 2025**

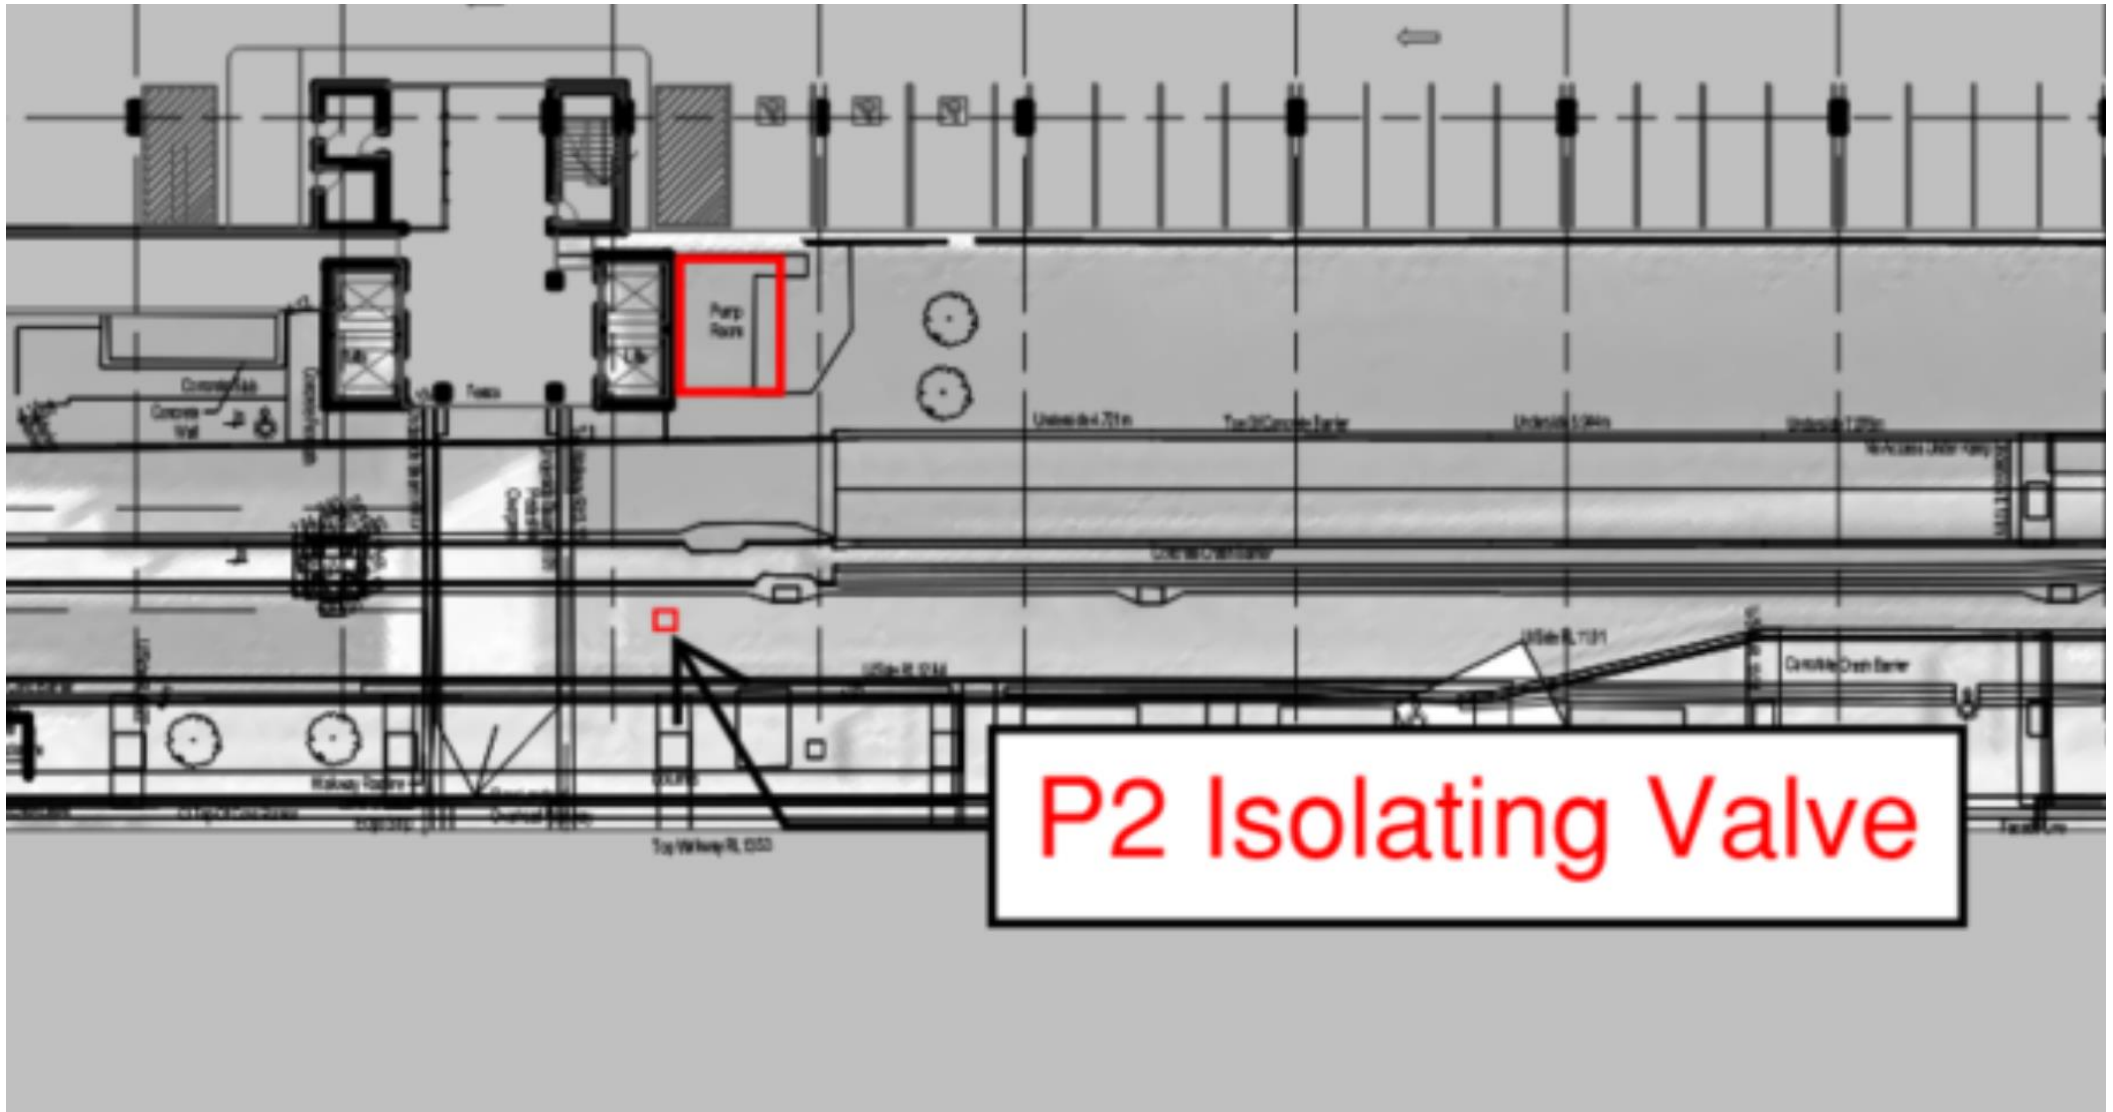

#### Time:

Friday  
7:00 AM – 3:00 PM

#### Works

- Works are scheduled to take **less than 8 hours**, commencing at **7:00 AM**
- Hydrant water services will be reinstated following completion
- All necessary safety locks and belts will be installed on the new valve
- The OSNY valve will be oriented to allow future maintenance access
- A more detailed map of the valve location is available below in additional information

## Additional Information

## Impacts

- **General Construction Noise:** Expect typical construction noise during the upgrade process, which may include sounds from machinery, drilling, and other construction activities.
- **Fire isolation:** Expected to last 8 hours on 27 August 2025, starting at 7:00 AM.
