

Stakeholder Notice

DTB Car Park 2 Extension Project (P2X)

STK-N 1243
Date 10 October 2025

[Weekly Works - Power BI](#)

As part of the P2 Carpark Extension Project, ADCO Constructions will be undertaking installation works for high-voltage (HV) cable tray covers along the walkway between Substations D85 and D80 in the existing P1 Carpark. The scope includes off-site pre-cutting of all cable tray lid sections to minimise hot works risks, access to Substation rooms D80 and D85 for fire rating assessments, and installation of cable tray covers inside the rooms.

To facilitate these works safely and efficiently, pedestrian access along the walkway between D85 and D80 will be temporarily diverted, and traffic controllers will be present to manage pedestrian and vehicle movements. Works are scheduled to commence at 12:00 PM and be completed by 4:00 PM on 15 October 2025.

Location

Precinct: P1 Carpark Ground Level

Terminal Zone: Substation Walkway between D85 & D80; Substation Rooms

Access Routes Affected: Pedestrian walkway between D85 & D80

Scope of Works

The following scope will be undertaken by ADCO in coordination with BAC stakeholders:

Works: Installation of covers for high-voltage cable trays along the walkway between substations D85 & D80, and installation of Passive Fire and Cable tray lid work inside rooms.

Date & Time: Proposed commencement at 12:00 PM and completion by 4:00 PM on 15 October 2025.

Methodology: All sections of cable tray covers will be precut off-site to minimize hot works risks. Access to Substation rooms D80 & D85 is required before walkway works begin. Work inside Substation rooms include fire rating assessment and installation of cable tray covers.

Resources: 2 traffic controllers will be present to manage pedestrian and vehicle movements safely.

Impacts

The following impacts are expected during the works:

- **Pedestrian Access:** Temporary diversion along an alternative walkway as per the attached plan.
- **Traffic Management:** Traffic controllers will assist pedestrians and manage vehicles in the carpark area.
- **Noise & Vibration:** Minor noise may occur during installation; work has been scheduled to minimize operational disruption.
- **Operational Considerations:** Substation access will be temporarily restricted during internal works.
