

Stakeholder Notice

International Terminal Power Interruptions MCCB Upgrades

STK-N I-136
Date 3 November 2025

[BNE – Stakeholder Notice Summary](#)

Brisbane Airport Corporation (BAC) is required to undertake main switchboard 510 maintenance works on the terminal's low voltage system to ensure electrical supply continuity & safety of the International Terminal Building electrical supply system.

Location

TIME	DATE
0045 - 0345	06/11/2025
0045 - 0345	10/11/2025
0045 - 0345	11/11/2025
0045 - 0345	12/11/2025
0045 - 0345	13/11/2025
0045 - 0345	14/11/2025

Terminal stakeholders can expect loss of **NON-ESSENTIAL SUPPLY ONLY** for the periods stated above in the following areas:

- Main terminal building areas, tenancies, carpark lighting and adjacent external areas, levels 1 -4
- Concourses, Concourse Tenancies, gates, aerobridges, and bays levels 1-3, between gate 77 and 87

Scope of Works

To ensure the ongoing safe and reliable supply of electricity at Brisbane Airport's International Terminal Building, BAC will be undertaking maintenance works impacting low voltage systems located internally and externally to the International Terminal Building.

Impacts

Services expected to be affected includes, but not limited to:

- TENANCIES
- APRON LIGHTING BAYS, 86, 87
- CARPARK LIGHTING
- GENERAL LIGHT AND POWER
- AEROBRIDGE 85 & 86
- L1 UNDER-ROAD OFFICES
- LENDLEASE TEMPORARY POWER

A General announcement will be broadcast over the building PA system ½ hour & 5 minutes prior to the disruptions.

Should you experience any ongoing power disruption issues following this disruption, please contact the BAC Operations Centre on 07 3406 3171.
